A BANKRUPTCY CASE.

In the case in which an application was made for a receiving order in respect of Chu Yat-ki, before the Hon. Mr. Vice-Chairman, K.C., to-day, Mr. Leo D'Almada e Castro, who made the application, said it had been adjourned in order that he might communicate with debtor to ascertain if he could raise a sum of \$1,000 in order to commence certain actions so as to increase the assets. He had written debtor, but could get no reply and now asked for a further adjournment.

The Deputy Official Receiver (Mr. A. G. M. Fletcher) objected. The case had been adjourned time after time since August last. There was not a possible chance of raising the \$1,000.

Mr. D'Almada said a further adjournment would not prejudice the Official Receiver.

The Official Receiver—I think it is a matter of the process of the Court.

Mr. D'Almada—With all due respect I submit the Official Receiver is not before the Court and has no locus standi.

The matter was further adjourned for a week.

SPORTING.

The Calendar.

Sunday, March 20.

VOLUNTEERING.—Musketry: standard test for all members not having done test; all day from 9 a.m. to 4 p.m. monthly; shoot: Tai Hung range, 9 a.m. and 2 p.m.

EXPERIENCES OF A LADY CANVASSER.

INEFFICIENCY OF PARTY GOVERNMENT - A DEPRESSING RALE.

Canvassing was a favourite pastime of ladies at the General Election and the reflections of one of them published in the Nineteenth Century over the name of Gertrude Klugman who seems to have worked indefatigably in one of the London constituencies, throws a flood of light, not so much on the process by which votes are captured, as on the social condition of the humbler people whose votes are sought. The upshot of the efforts of this lady who set out to face,

THE DRUDGERY AND THE DUST OF AN ELECTORAL CAMPAIGN.

solemnly convinced that "the hour of trial" was striking for England" and that to help in "carrying the message of liberty into every house" was work worth doing, was to rudely shake her own faith in the shibboleth she preached so fluently." She has become "at once something less than a Fabian Socialist, something more than a Feudal Unionist." She does not, in so many words, condemn both sides, but proclaims that her ideal Cabinet capable of reforming the crying abuses she witnessed in her canvassing excursion, and of formulating measures by which something of order should creep into the chaotic depths she sounded, would not include any party politicians. Its Chief should be strong enough to steer clear of the "advanced altruism" of one party and the "pronounced materialism" of the other. Able men of business, in the habit of supplying the public with the best article at the most moderate price and who keep on the same staff of able officials who helped them to succeed in their enterprise, would be invited to join; next the directors of great co-operative stores whose experience would be useful in running the huge co-operative machine, which is the Government, would be included, and with a self-made man or two who have proved the possession of qualities that must insure the success of reform schemes, her Cabinet would be complete. Thus might "Government by efficiency" replace "Government by majority" which means periods of action and reaction. England being the proud possessor of "an ideal constitution" that depends upon the people's electorate" is more exposed than less fortunate nations to long spells of reaction that are really "retrograde inactivity." Just as Magna Charta checked King John's reckless progress to the limit hoped the people, might check Mr. Lloyd-George's career. But this was only the usual effort to compromise and subject the Government to "mob-law, dangerous experiments" that rarely do good. Mr. Chamberlain, in his desire for the consolidation of the Empire, preached the doctrine of Colonial Preference. This has now gone through a period of evolution and is called Tariff Reform. It is the magic wand that is to turn misery into joy, poverty into riches. But

GERTRUDE KLEUGMAN.

is not sure that it can make so sweeping a reform, now that she has seen how many wrongs it will have to make right first. She set out to canvas after cherishing for seven years a patriotic idea. As with many another enthusiast it had its source in a story of German military activity told her by a young English officer, who, had, by a happy chance, witnessed the rapid embarkation of a whole German Army Corps as a part of their usual exercises, on the shore of the North Sea. Her patriotism took fire, and, despairing, since the suffragettes adopted violent measures, of getting the vote herself in time to rouse

the Country to their danger, she decided to use her influence to induce men voters "to plump in the cause of patriotism." She was cruelly disillusioned, for she slowly but steadily realised the helplessness of appealing to the electors

of love of country, or of anything that did not touch his pocket. While learning also how Londoners live, with the results that her canvassing interlude made her long for the passing of measures more needed and more direct in their bearing on the comfort of the poor. Tariff Reform. Though there is abundant legislation about limiting hours of work and Trades Unions, still powerful in protecting the workman against the exhaustion of his energies, she found that most working men in the poorer districts did not return to their homes until about 11,30 at night. Needless to say they were not at work from morning till near midnight.

"Not come in yet," was the invariable answer when she called earlier to pray the man for his vote. She sorrowfully admits that the home to which he might have returned in the afternoon was too often unendurable from the combined influence of an unkind wife and ill-nourished, undisciplined children. If the landlord neglects to repair the house, she found the wife of the elector quite as oblivious of her duty. That it is not all her fault, she grants, for she is at home all day and all night in slatternly surroundings. Such instructive teaching is

REASON TO ACT ADMINISTRATION.

The ignorance and untrained savagery of the girls in the poorer London slums appeal to the workers in Charitable Settlements there. The use of soap and water, the cooking of simple meal, still in any kind of household work, are often miserably

done.

SEWER-RATE DISPUTE HAS EIGHT TO CLEAN HER HOUSE.

can who sits in Parliament for her division? What can be the use of a Local Government, that allows such a state of affairs where human beings dwell and pay rent? The sanitary officers and health inspectors who are paid to maintain the laws of public hygiene and do not prevent such abuses should be swept away with as big a broom as can be wielded. The Army and Navy may and must be the first car

of the nation and should be established above and beyond all party dangers, but when once secured, let a Board of Education teach boys and girls that cleanliness still comes next to godliness and that it is a science they must make their own second nature. Let practical domestic economy and hygiene be taught on broad lines as an essential part of the school girl's equipment, as carefully taught as the three R's. "Clean up the home and save the people," concludes this lady canvasser. It is a question, if the daintiness and dreariness of their homes and the hardness of their lives. And how can a woman, who lives in a tenement where

Calcutta on the 13th March for

Hongkong via Japan ports.

The P. & S. S. Co.'s a.s. *Henrik Ibsen* sailed from Astoria en route to Hong-

kong on Sunday, March 6th.

The P. & C. R. Co.'s a.s. *Hercules* sailed

from Astoria en route to Hongkong on

Monday, March 7th.

The *Mogul* Line's a.s. *Attila* left the United

Kingdom on the 10th March, for

Hongkong via Straits.

The *Asiatic* left Moji on the 14th March.The Ben Line's a.s. *Bentoro* from Antwerp

and London left Singapore on the

16th March, for this port.

The P. & O. S. N. Co.'s a.s. *Falawan* is

expected to arrive at Colombo on the

29th March, at 2 p.m.

The I.C.S.N. Co., Ltd.'s a.s. *Kumsang* left Calcutta for the Straits and Hong-

kong on the 16th March, and is due

here about the 1st April.

LAI CHI ADVICE.

The P. & O. S. N. Co.'s a.s. *Sardinia* left

Singapore for this port on the 18th

March, at 3.30 p.m., and is due here

on the 23rd March, at about 8 p.m.

The H. A. Line's a.s. *Alecia* left Singapore

on the 18th March, p.m., and may be

expected here on or about the 24th

March.

The C. & M. Co.'s a.s. *Zapir* left Manila

on Saturday, the 19th March, and is due

here on or about Monday, 21st

March, at 6 p.m.

C. & M. Co.'s a.s. *Canalings* left

Singapore on the 18th March.

March 18. *Hirano Maru*, *Mishima Maru*,*Solarie*, *Yore*.

CHLORODYME

AGE TWO & UPWARD.

FEVER, CROUP, AGUE.

COUGHS, COLDS,

ASTHMA, BRONCHITIS.

THE ONLY PALLIATIVE IN

NEUTRALISES GOUT, RHUMATISM.

Chlorodyme is a liquid taken in drops

graduated according to the mind.

It invariably relieves pain of whatever kind; creates a calm refreshing sleep; allays irritation

of the nervous system when all other remedies fail; leaves no bad effects;

and can be taken when no other medicine can be tolerated.

CONVINCING MEDICAL TESTIMONY WITH EACH BOTTLE.

Nursing Genius without the words Dr. J. Collis Browne's Chlorodyme on the Stamp.

Sold by all Chemists.

Price in England.

offered by this huge Chinese empire. The Chinese reformers have all meant well, but somehow or other they never seem to be able to strike out the right path. They have either been too fancifully idealistic or else too materialistic. Again they have never been able to emancipate themselves from the swathing bands of conventionalism and ritual with which the centuries have enveloped the mental processes of the Chinese mind. In other words, they are splendid theorists but bad executives. H. E. Taotai Wei Han would no doubt dissent from this statement of the case; and we would give his objection due weight, but all the same we do not see ourselves receding from the position here assumed. If China is going to abandon the ancient paths and follow instead the learning which has been developed in the schools of the West, she will have also to acquire a capacity for utilizing knowledge properly, otherwise it will be a thing of naught; and a source of peril, nay of positive disaster. Ill-digested, unassimilated, the learning of the West would breed nothing but turmoil, discontent and ultimately corruption. But if on the other hand China can receive the wisdom of the West through proper channels, channels which will conduce to the making of men of sound moral character as well as sound learning then it will be well with her. Character, as Lord WILLIAM GASKELL says, is the key to the success of all English schools and universities: Western civilization without moral character is not a very attractive product, and we should be sorry indeed to see China exchanging the strictness of the Confucian ideals for something infinitely worse in the matter of gross materialism. That is the great danger of the era in China and one which will require a good deal of careful thought on the part of the governing body of the new University of Hongkong if our own scholastic venture is not to end in moral shipwreck. China will do well therefore to accept the hand of practical friendship held out to her from England and place every facility possible in the way of the Hankow University project. Hitherto, we say it to our shame, China has not seen so very much of the best side of Occidental civilization, from the days of the Portuguese filibusters down to the last sacking of Peking: the establishment of Universities at Hongkong and Hankow will, however, we fervently trust, bring us before the Chinese nation—literati, officinidom, middle classes, and proletariat—in quite a different guise, a guise that shall win for us eventually their respect and esteem, so that again we shall see the golden age return to China, that age when this mighty empire with its teeming myriads of sober, law-abiding, and self-respecting citizens was distinguished for its progressive, democratic and catholicity of spirit.

SOCIAL AND PERSONAL.

Mr A. W. Burkhill of Shanghai passed through on the Macedonia.

H. E. the Governor of Macao is paying a private visit to Hongkong, arriving here last evening.

The Rev. F. T. Johnson, Senior Chaplain of St. John's Cathedral, leaves the Colony on leave by the next English Mail.

Mr and Mrs E. G. Barrett were passengers homeward to-day by the Pacific Mail steamer Manchuria. They had a very hearty send-off.

Mrs Landor and daughters left for England to-day on the P. & O. Macedonia. Mrs Landor hopes to be back in the Colony by September.

His Excellency the Governor has been pleased to recognise Vice-Consul Markwald as being in charge of the German Consulate at Hongkong during the absence on leave of Dr Voratzek.

Among the well-known faces on the horns going English Mail to-day was Captain Allan Jones, Commodore of the Shan Ho. He is going home to Wales on well-earned leave.

AN EXCELLENT LINIMENT.

EVERY family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Pain Balm. There is no telling when it may be wanted, but it is always there when you need it. It is a most pleasant and aromatic ointment. To fit in most recent in all cases of rheumatism, sprains and bruises. For sale by all chemists and druggists.

VOLUNTEER INSPECTION.

General Broadwood the Defence of the Empire.

The annual Volunteer inspection took

place this afternoon by His Excellency Major General Broadwood. There was a good muster, the men all looking smart and gay in the bright sunshine. The inspection and march past was watched by a large gathering of interested spectators. Addressing the men,

His Excellency said—Colonel Chapman;

Officers and men, H. K. V.C.—I have

been pleased throughout the past training

with the work you have done towards

making yourselves efficient fighting men.

I was particularly pleased at the keenness

shown by those who were able to attend

the camp in the New Territory, and I

consider that camp a great advance from

the point of view of practical soldiering

in any previous camp. I have

seen hard. I am sorry to say, that the

corps is far from being filled

up to its establishment. I know that

there are plenty of able-bodied men in the

Colony who would come forward in an

emergency to assist, in the defence of the

Empire and I know that they think that

if a man is a good shot and a good sportsman

he is fit to take his place in the fighting

line. I can assure you that this is a

fallacy and that an untrained man in

the fighting line, no matter how

good a shot he may be, is not only

useless but a danger in modern war. I

don't tell you this on my own authority

alone, but also on that of a far greater

soldier, Sir John French, who during his

stay here was much impressed by the

difficulty of the surrounding country and

said that hard more than in other

parts of the empire an untrained man

would be useless in the fighting line.

The imperial idea is growing both at

Home and in the overseas colonies; that is,

people are realizing that the empire can

only be kept together by every man making

himself ready to take part in its defence

and that it cannot depend on the standing

army only for its defence. If you can

spread this idea in Hongkong you will have

done as much good as you can example in

making yourselves fit. (Cheers.)

NEWS OF THE DAY.

To-morrow is Palm Sunday.

The Cleveland left Hongkong for Manila shortly before nine o'clock on Friday evening.

Mr Leslie of Lyemun Villa, Kowloon, is the latest victim of the far too busy sneak thief.

At the last general election in the

British Isles, 1,085,315 people entitled to

vote declined to exercise their privilege.

Work has been resumed at last on the

market at Tsimshatsui, Kowloon, the greatly

delayed iron-work having arrived. Why

should Government undertakings be subject

to these delays?

University College, London, appeals for £70,000 to build new chemical laboratories in honour of the present occupant of its Chemistry Chair—Sir William Ramsay, the discoverer of a whole group of elements.

The Macedonia to-day took away a very large number of passengers. She is the direct home-going P. & O. mail steamer, and we could wish that the Company could see their way to sending more like her direct home from China.

Real importance will attach to Mr D. C. Lathbury's "Religious Life of William Edward Gladstone." In the first place, it is a work supplementary to Lord Morley's "Gladstone," and secondly it contains much unpublished correspondence. Notable names are brought up by this correspondence.

The book, which Mr Murray published

in two volumes, is now nearly ready.

From Messrs. Rombach and Co., agents

for the Oliver Typewriter Co., and the

Ronco duplicator, we have received a very fine film copier ribbon. The special feature

of this ribbon is that it is only inked on one side which being placed next to the paper in writing the type strikes on a clean

surface each time and consequently never gets clogged. The Oliver typewriter, which

is justly popular in Hongkong as well as

other places in the Far East, is being

constantly improved and is one of the best

and most compact machines on the market.

Opium smuggling into Bangkok, re-

marks the Bangkok Times, has practically

ceased to exist, and the simple reason

of this is that the Chinaman cannot make

money at it. Despite the number of cap-

tured and the subsequent fine or imprison-

ment of the offenders, the trade in smug-

gled opium flourished, but once the buying

price in Hongkong and Siam reached a

too high figure the trade ceased. Now

opium fetches \$3 a tael in Siam, and \$4

in Hongkong. In Bangkok the price

paid for smuggled opium varies between

Ticals three and four, as against the Gov-

ernment's selling price of Ticals 7. This

does not give the "importer" a chance,

and the market is dull pending a drop in

the price per tael in Hongkong and Siam.

These old stories, told time without

number, and repeated over and over again

for the last 37 years, but it is always

true that there is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

health. There is nothing in the world

that can be more interesting. To

SATURDAY, MARCH 19, 1910.

COMPANY MEETINGS.

Green Island Cement Co., Ltd.

The twenty-first ordinary annual meeting of shareholders of the Green Island Cement Co., Ltd., was held in the office of the General Managers, St. George's Buildings, to-day.

Mr. R. Shaw presided and there were present: Sir Paul Chater, Hon. Mr. W. J. Greson, Dr. J. W. Noble, consulting committee; and Messrs T. F. Hough, E. W. Terry, D. Sunye, W. H. Young, A. Babington, Tong Lai Chuen, J. A. Young and J. Robinson, secretary.

The Secretary read the notice convening the meeting.

The Chairman said—Gentlemen, the report and accounts for 1909 have been in your hands since last instant, and you will have seen from them that although our profit on working is slightly larger than that for 1908, we have had to reduce the dividend to seven cents per share on account of various special charges and losses which it is reasonable to suppose will not occur again. The first is a loss of \$18,146 on the concrete block and pipe business. We went into this in the hope of filling a demand for concrete work in place of wood which perishes so quickly out here from the effects of climate and the attacks of whoots and bats, but although we undertook the work at prices which we know would leave us no profit, concrete work has not become popular with builders and contractors, and therefore, having given a fair trial, we have decided to undertake no further contracts, work although of course we are in a position to supply at any time concrete blocks and pipes against order. We understand that a similar attempt to push concrete work at Shanghai has not been a success, although in Manila and the Philippines generally, concrete buildings are greatly in favour and considering the many points in favour of concrete, our American friends seem in this respect wiser in their judgment than we in China. Then we had a claim for loss occasioned by the sparks from one of our engines setting fire to a contractor's workshop and as we were advised that we would under the special circumstances have no defence in the law, we compromised at once for about \$10,000. The third and last exceptional loss is \$15,633 incurred in obtaining the concession to quarry limestone near Haiping, principally the salary and expenses of the special agent we sent down for the purpose and legal and other charges. We are now requiring steamer carriage of our goods regularly and although we still have the everlasting hills in China to rely on, the supply there is quite unlimited. I need not enlarge to you upon the advantage of having two strings to our bow in the matter of raw material. In addition to these items we are able to write off about \$18,000 more for depreciation than we did the previous year. And thus we get out our draft at the bank reduced, we must continue to put aside enough as we can in this way. Interest paid \$30,000 is a heavy charge to against our profits, but by reducing our debts we shall also reduce this figure and eliminate it altogether in time. Taking all this into consideration I think we are quite justified in anticipating that our profit and loss account will show a large balance for appropriation as I see no reason to suppose that out sales will show any fall off, quite the contrary. Looking at the balance sheet you will notice that our expenditure under various headings on capital account was much less than the year before, and I am glad to say, is now at an end as we do not contemplate any further additions to plant or machinery or buildings which form a complete and modern factory as they stand. So far this year we have spent nothing on capital account and hope to spend nothing. But all we have spent has been solely with a view to increased efficiency and economy in working cost for it is a great deal gained if we can reduce the cost of manufacture by even only one cent a barrel and I am glad to say that we have done much more than that. The two principal items of expenditure were for a new packing house and godown and a new boiler and boiler house for the rotary kilns. If we had not had the first we should simply have had to stop working whenever our stocks of finished cement accumulated, and as for the latter enables us to keep up steam on an inferior and cheaper coal whereas formerly it was all we could do to keep the factory running at full pressure on the best Australian coal. The other items were individually small, the largest being \$3,000 for a hopper-barge for removing refuse, ashes, &c., but by alone we save \$200 a month. The same remarks apply to the expenditure at Macao, which however was very heavy. Nearly all of it was spent on conveyors and crushers to reduce the cost of turning out dry clay and crushing clinker. As I said before nothing was spent without a clear object of either increased efficiency or reduced cost in view, but we seem not to have done about all we can in these respects. You will also notice that the amounts against sundry creditors and sundry debtors were unusually large at the end of the year, but it merely happened to be. Both items have since been reduced to a minimum and the balance of the purchase money of the property at Canton, title deeds for which are now in the hands of the British Consul. As to the future and this year's business in particular, our prospects are quite good. Our make is a universal favorite with engineers and continues to grow in favour with everyone who tries it. We have now a good market for it all over China, the Philippines and the Straits, and if we were ever pushed for more outlets we could find them still. Another field, but at present it seems that we have quite enough to do with the places I have named and our own market which have easily taken all we could turn out. For the moment our prospects are all that we could wish, we have sold to date more than we did this time last year, and we have just closed a contract for another thousand bags for the north. It is always dangerous to prophecy, so I shall only say that I shall be disagreeably surprised if we do not do at least a little better this year than last.

There being no questions the Chairman proposed the adoption of the report and accounts.

M. T. Hough seconded. He said—Having read the report and accounts and having heard what the Chairman had to say about them, there is very little for us to consider except to tender a meed of praise to the general manager, for the way in which they have handled the affairs of the company under exceptional difficulties.

The motion was carried.

On the motion of M. T. Hough, seconded by Mr. Terry, Sir Paul Chater, Hon. Mr.

W. J. Greson, and Dr. J. W. Noble were re-elected members of the consulting committee.

Mr. Tong Tai Chuen proposed and Mr. Fung Shu Wah seconded, and it was agreed to that Messrs W. H. Peart and A. O'D. Gourdin be re-elected auditors.

The Chairman—That is all the business gentlemen; I am much obliged to you for your attendance and to Mr. Hough for his kind remarks. Dividend warrants are now ready.

A receiving order was accordingly made.

STANDS UNRIVALLED.

CHAMBERLAIN'S Cough Remedy never disappoints those who use it for chronic coughs, colds and irritations of the throat and lungs.

This stands unrivaled as a remedy for all throat and lung diseases. For sale by all chemists and druggists.

And set my Harvard free.

INTERVAL TREATMENT NOT NECESSARY FOR RHUMATISM.

FULLY nine out of every ten cases of rheumatism is simply rheumatism of the muscles due to cold or damp, or chronic rheumatism, neither of which requires any internal treatment. All that is needed is a full relief is the free application of Chamberlain's Pain Palms. Give it a trial. You are certain to be pleased with the rapid and safe effects. For sale by all chemists and druggists.

THE CHINA MAIL.

RAMBLING NOTES.

The outstanding event of the week, so far as Hongkong is concerned, was the laying of the foundation stone of the University buildings by Sir Frederick Lugard on Wednesday. The day was perfect, with its forecasts of summer, and it goes without saying that everybody who was anybody was there.

The twenty-first ordinary general meeting of shareholders of George Fenwick & Co., Ltd., was held in the Hongkong Hotel, to-day.

Mr. G. K. Paxton presided and there were present: Messrs P. Foster, A. Rogers, director; Messrs J. D. Kinnaid, and Mr. J. Corrigan, manager.

The manager read the notice convening the meeting.

The Chairman said—Gentlemen—The report and accounts for 1909 have been in your hands since last instant, and you will have seen from them that although our profit on working is slightly larger than that for 1908, we have had to reduce the dividend to seven cents per share on account of various special charges and losses which it is reasonable to suppose will not occur again.

The first is a loss of \$18,146 on the concrete block and pipe business. We went into this in the hope of filling a demand for concrete work in place of wood which perishes so quickly out here from the effects of climate and the attacks of whoots and bats, but although we undertook the work at prices which we know would leave us no profit, concrete work has not become popular with builders and contractors, and therefore, having given a fair trial, we have decided to undertake no further contracts, work although of course we are in a position to supply at any time concrete blocks and pipes against order.

We understand that a similar attempt to push concrete work at Shanghai has not been a success, although in Manila and the Philippines generally, concrete buildings are greatly in favour and considering the many points in favour of concrete, our American friends seem in this respect wiser in their judgment than we in China. Then we had a claim for loss occasioned by the sparks from one of our engines setting fire to a contractor's workshop and as we were advised that we would under the special

circumstances have no defence in the law, we compromised at once for about \$10,000. The third and last exceptional loss is \$15,633 incurred in obtaining the concession to quarry limestone near Haiping, principally the salary and expenses of the special agent we sent down for the purpose and legal and other charges. We are now requiring steamer carriage of our goods regularly and although we still have the everlasting hills in China to rely on, the supply there is quite unlimited. I need not enlarge to you upon the advantage of having two strings to our bow in the matter of raw material. In addition to these items we are able to write off about \$18,000 more for depreciation than we did the previous year.

And thus we get out our draft at the bank reduced, we must continue to put aside enough as we can in this way.

Interest paid \$30,000 is a heavy charge to

against our profits, but by reducing our debts we shall also reduce this figure and eliminate it altogether in time. Taking all this into consideration I think we are quite justified in anticipating that our profit and loss account will show a large balance for appropriation as I see no reason to suppose that our sales will show any fall off, quite the contrary.

On the advice of our agents, we have written some \$6,700 off the value of our start-up materials and plant which have been maintained in an efficient state.

This reduction in the values has been rendered advisable by reason of the changes in the requirements of our business which make it doubtful whether the old values of some of our stock could be realised and also to meet depreciation on such materials as suffer from climatic influence.

Bank—Hongkong has been placed at \$900 and the market closely steady at \$881. London is unchanged at \$8810.

Marine Insurance—Unions have again been done at \$910 and Cantons to \$170.

First Insurances—Hongkong has been placed at \$835 and China at \$109, the latter closing with further buyers.

Shipping—Hongkong and Macao Steam-boats have been booked at \$300 and at the rate there are further buyers available. Indos have been sold at \$65 and Shell Transports at the enhanced rate of \$5.

Refineries—China Sugars have been sold at \$172 and Luzons at \$31, both closing with further buyers.

Docks, Wharves and Godowns—Hongkong Docks are ranged at \$60 after sales at \$63 and \$62. Kowloon Wharves have been booked at \$83 and forward on the basis of \$65, but at the close are somewhat easier at \$60 ex the dividend of 6 per cent paid on the 16th inst.

Lands, Hotels and Buildings—Humberphreys are advancing, and after sales at \$3 and \$4 are still in demand. Other stocks under this heading are unchanged and without business.

Octopus Mills—Hongkong have been booked at \$86 Ewca at \$127.

Miscellaneous—China Porcose have sold at \$4 and more are wanted. Cements have been sold at \$7 and Rogers at \$21.

Rubbers—A large business has been put during the past week and the market is steady. London Ventures at 10/9 East India Tigris at 27/0 to 100. United Serangat at 127/0 to 140. Bulel Kajang at 85/0 and 90/0.

Friarage—China Porcose have sold at \$7 and Rogers at \$21.

The result is that many children are being educated privately while their parents are making heroic sacrifices to lay by sufficient money to send them eventually to England. Now this sort of thing should not be if the educational ladder of the Colony is to be well built.

Mr. Kinnaid seconded and the motion was carried.

Mr. Forbes proposed the re-election of the directors. Mr. McCorycudale seconded and the motion was carried.

On the motion of Mr. Kinnaid seconded by Mr. McCorycudale M. H. Forcy Smith was re-elected auditor.

The Chairman—That is all the business gentlemen, thank you for your attendance.

The National Bank of China Limited.

An extraordinary general meeting of the National Bank of China, Limited, was held at the Office of the Bank at Queen's Buildings, to-day. Mr. C. Evans presided and there were also present Messrs Ellis Kidder, P. C. Fotta, E. D. Haskell, Lau Chu Pak, Sin Tat Fan, Pang Sin Hang, Lam Wing Chung, Chan Ho Shang, Cheung Lai Ping, P. Davidson, E. H. Ellis, and P. L. Loring (acting manager).

The Chairman moved and Mr. Fotta seconded that the subjourned resolutions which were passed at the extraordinary meeting of the company be confirmed as special resolutions.

That Articles 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124 and 125 of the Articles of Association be struck out and replaced by striking out in Article 93 the word "ten" and substituting "three" thereto and by striking out in Article 154 the words "in London" and the words "on Committee" whereby the deficiency now so painfully apparent, could be supplied.

The resolution was agreed to.

Chairman proposed the subjourned resolution.

That Article 154 of the Articles of Association be struck out and the following article substituted therefor:

The Directors shall provide for the safe custody of the Seal and the Seal shall never be used except in the presence of a Director or of some person appointed by a Managing Director or by the Directors who shall sign every instrument to be put into force.

That Articles 89, 93 and 154 of the Articles of Association be amended by striking out in Article 89 the 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th lines of such Article and by striking out in Article 93 the word "ten" and substituting "three" thereto and by striking out in Article 154 the words "in Committee" whereby they shall occur in such Article.

The resolutions were agreed to.

Chairman proposed the subjourned resolution.

That Article 154 of the Articles of Association be struck out and the following article substituted therefor:

ROADING THE NAVY.

Five young men and one young woman, all of them extremely well connected and well-to-do, have perpetrated a most amazing practical joke on the Admiralty, the British Navy, and H.M.S. Dreadnought in particular. Three of the young men and the girl, fully disguised as Abyssinian princesses, travelled down to Portland, and were there received with princely honours on board the flagship. The two other young men played the parts respectively attached to the Foreign Office and interior minister. From start to finish they were forty minutes on board H.M.S. Dreadnought, and from the point of view of the perpetrators of the joke, the escap
